

Creating Item Class in Acumatica

To create an item class in Acumatica you need to go to the item class and fill in the details. After creating the item class in Acumatica, you need to save it.

Creating a New Item Class

The checkbox for **[Enable for Magento Sync]** should be checked. This option comes from the **[Inventory Preferences]** within Acumatica.

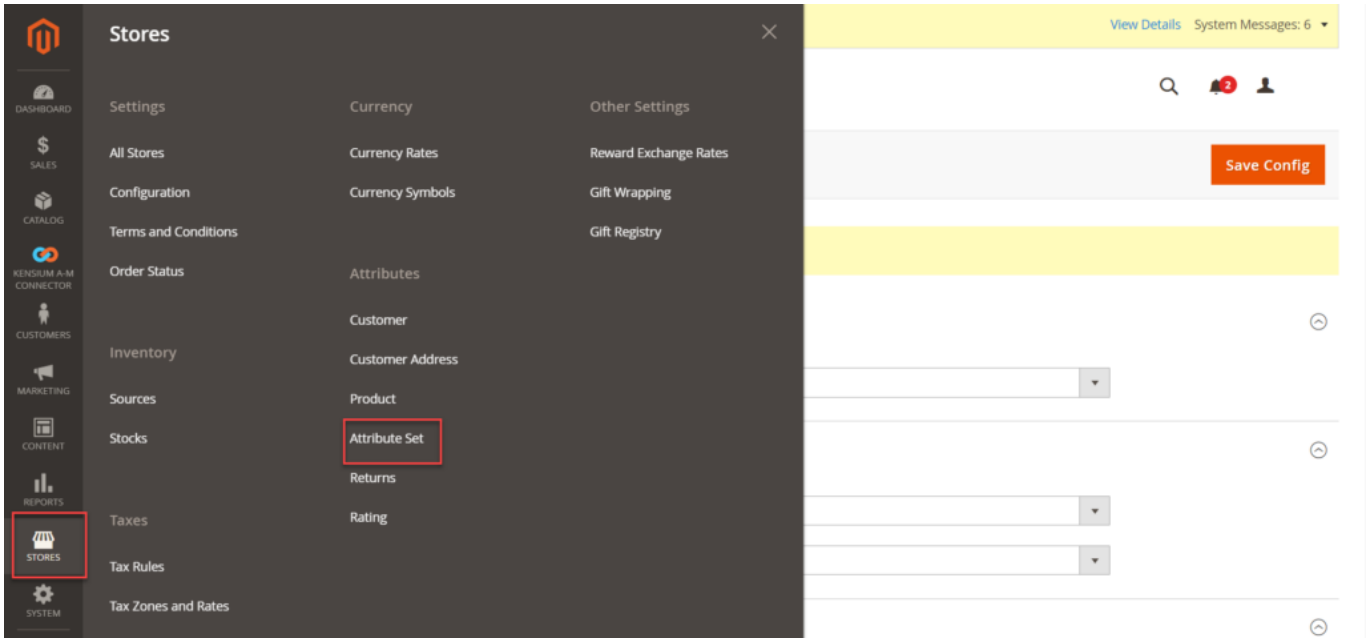

The screenshot shows the Acumatica Inventory Preferences configuration page. The 'Inventory Preferences' title is highlighted with a red box. The 'ECOMMERCE SETTINGS' section is also highlighted with a red box, showing the checkbox 'Enable Magento Attribute Section' which is checked. Other sections visible include 'NUMBERING SETTINGS', 'DATA ENTRY SETTINGS', 'ACCOUNT SETTINGS', 'POSTING SETTINGS', 'DEFAULT REASON CODES', and 'PHYSICAL INVENTORY SETTINGS'.

Ecommerce Settings in Inventory Preferences

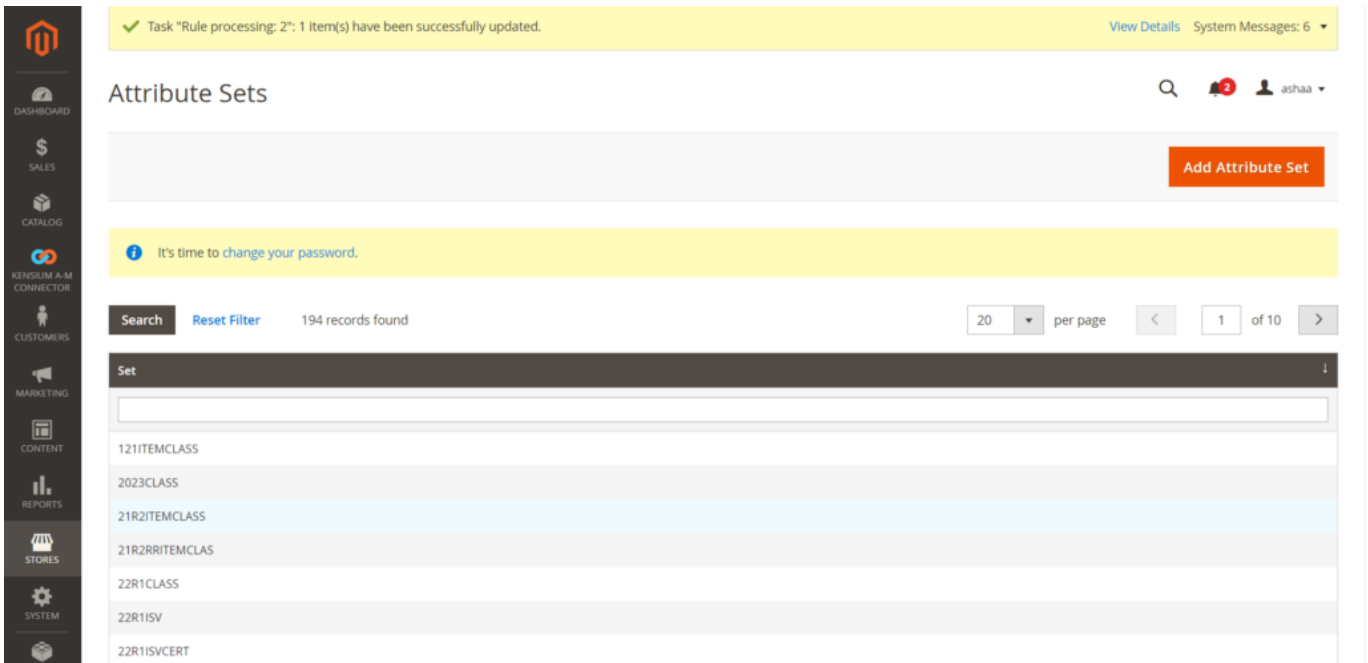

If the above-shown checkbox under the Ecommerce Settings is unchecked or disabled, then you won't be able to see the option [Enable for Magento Sync] irrespective of Item Class, Item Sales Category or in the Products.

In Magento, it will automatically sync. Go to Magento and click on the [Store] on the left panel and under Attributes you will find an option [Attribute Set].

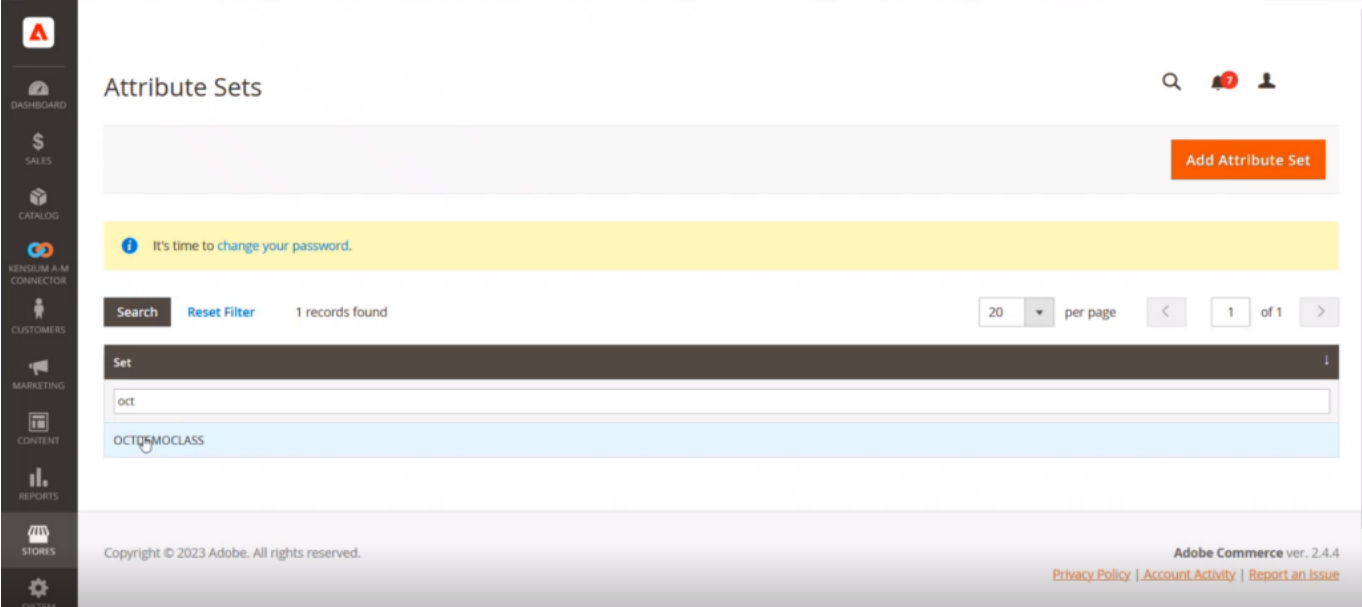

Attribute Set in Stores

Upon clicking on the [Attribute Set] you will be redirected to the following screen.

Attribute Set Screen

 You need to search for the Item Class that you have created.
