

# Creating Product Attributes

Like Customer Attributes, you can create the Product Attributes from the Attributes screen as shown below.

The screenshot shows the Acumatica 'Attributes' screen. The top navigation bar includes the Acumatica logo, a search bar, and user information (Revision: Two Products, Products: Wholesale, 10/22/2023 8:39 PM, admin admin). The left sidebar lists various business modules: Favorites, Data Views, Material Requirement..., Time and Expenses, Finance, Banking, Payables, Receivables, Sales Orders, Purchases, Inventory, and Dashboards. The main content area is titled 'Attributes' and contains a form for configuring an attribute. The attribute is named 'DEMO SIZE' with a description 'Demo Size' and a control type of 'Combo'. The 'MAGENTO CONNECTOR ATTRIBUTE SYNC PREFERENCE' section shows 'Substitute ID' as 'Value ID' and 'Magento Reference' as 'Value ID'. Below the form is a table with columns: Value ID, Description, Sort Order, Disabled, and Sync Status. The table contains three rows: M, L, and S, all with 'Unsynced' status.

Value ID	Description	Sort Order	Disabled	Sync Status
M	M		<input type="checkbox"/>	Unsynced
L	L		<input type="checkbox"/>	Unsynced
S	S		<input type="checkbox"/>	Unsynced
