

Creating Shipment from Acumatica

You can create the shipment from Acumatica by clicking on the **[Create Shipment]** button.

The screenshot displays the Acumatica interface for creating a shipment from a sales order. The top navigation bar includes 'Acumatica', a search bar, and user information. The left sidebar lists various modules like Favorites, Data Views, Time and Expenses, Finance, Banking, Projects, Payables, Receivables, Customization, Sales Orders, Purchases, Inventory, Magento Connector, and Kensium License. The main area shows the 'Sales Orders' section for 'SO OS11111579 - Shivaji V'. A 'Specify Shipment Parameters' dialog box is open, allowing the user to select a 'Shipment Date' (10/30/2023) and a 'Warehouse ID' (RETAIL - Retail Warehouse). The background table lists items with their respective quantities, discounts, and prices.
