

Creating the Store

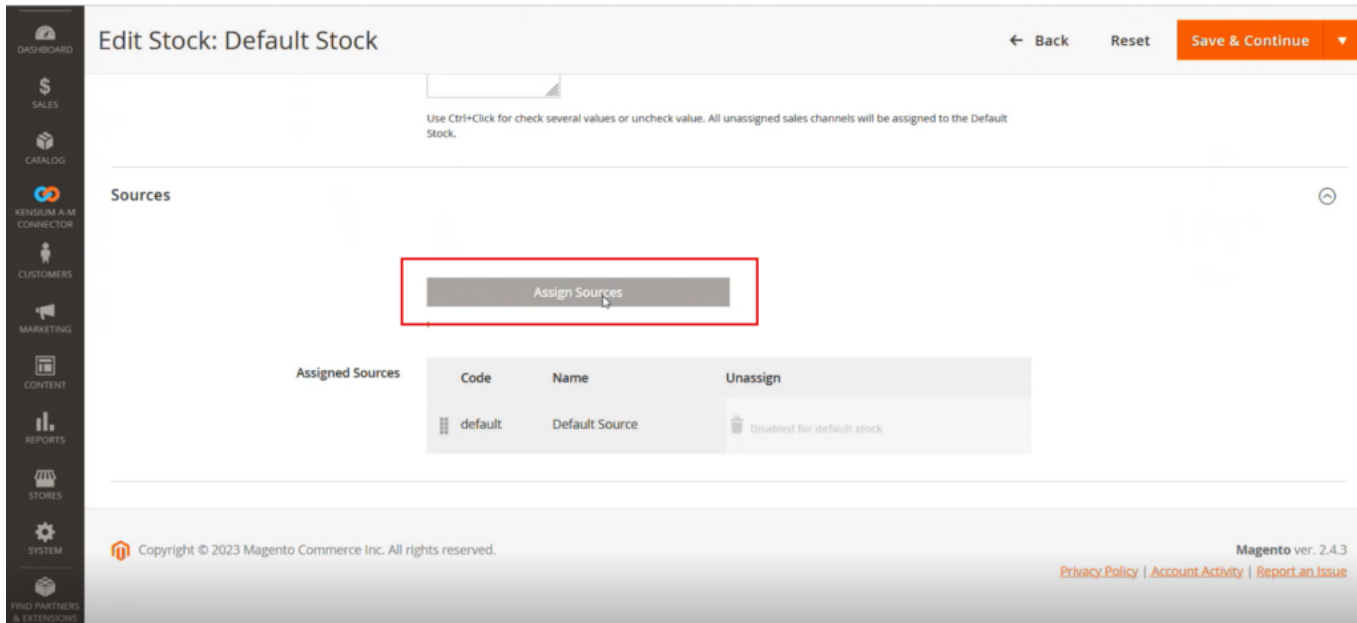

At the first stage only default store will be displayed which you can edit from the Manage Stock Screen.

The screenshot shows the Magento Admin interface for the 'Manage Stock' section. The left sidebar contains navigation links for Dashboard, Sales, Catalog, KENDUUM A-M CONNECTOR, Customers, Marketing, Content, Reports, Stores, and System. The main content area has a 'Manage Stock' title (highlighted with a red box) and an 'Add New Stock' button. Below this is a yellow notification bar stating 'It's time to change your password.' A search bar with the placeholder 'Search by keyword' is present. Below the search bar, there's a table with one record. The table has columns: ID, Name, Sales Channels, Assigned Sources, and Action. The first record has ID 1, Name 'Default Stock', Sales Channels 'website Main Website (base)', and Assigned Sources 'Default Source (default)'. The 'Action' column for this record contains an 'Edit' button (highlighted with a red box). The footer shows 'Copyright © 2023 Magento Commerce Inc. All rights reserved.' and 'Magento ver. 2.4.3'.

ID	Name	Sales Channels	Assigned Sources	Action
1	Default Stock	website Main Website (base)	Default Source (default)	Edit

Upon clicking on the [Edit] button you will be redirected to the following screen.

Use Ctrl+Click for check several values or uncheck value. All unassigned sales channels will be assigned to the Default Stock.

The screenshot shows the Acumatica user interface. The top navigation bar includes the Acumatica logo, a search bar, and user information. The left sidebar lists various modules like Favorites, Data Views, Material Requirements, Time and Expenses, Finance, Banking, Payables, Receivables, Sales Orders, Purchases, Inventory, and Dashboards. The main content area displays a menu of items categorized under 'MENU ITEMS (7)'. The 'Organization' item is highlighted with a red box, and its sub-item 'Branches' is also visible.

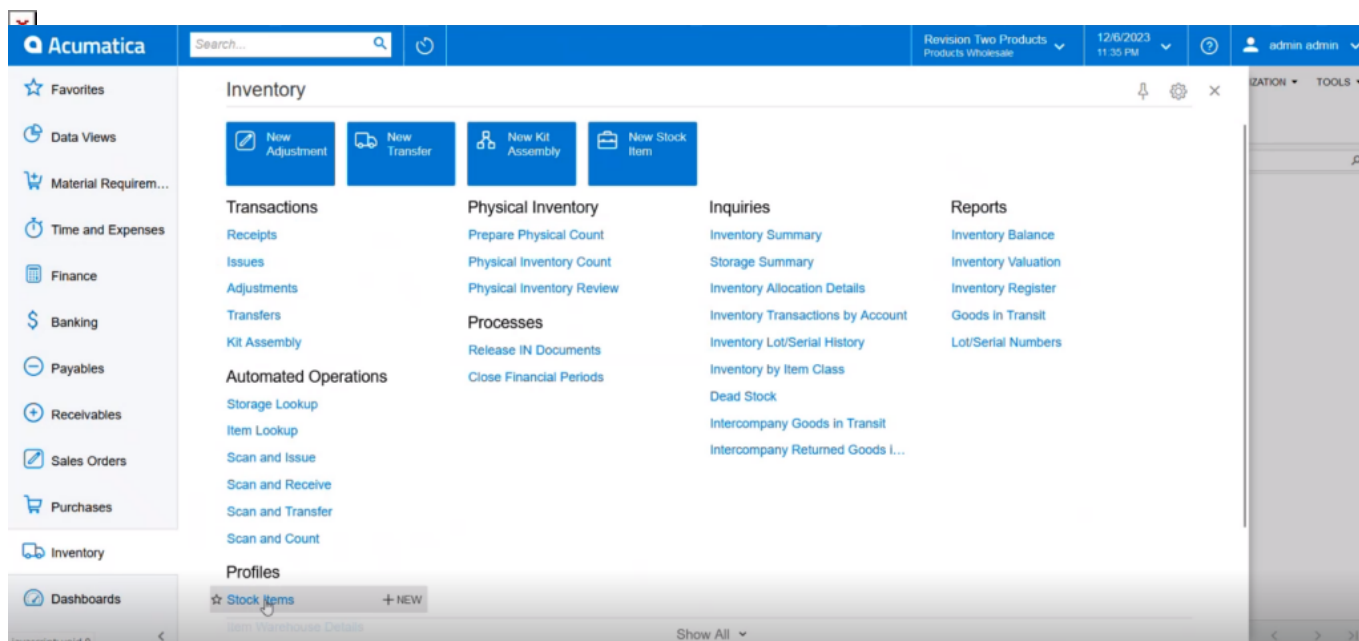

The screenshot shows the Acumatica user interface with the 'Branches' table displayed. The table has columns for Branch ID, Branch Name, Country, City, Active, Account Name, and Created On. There are 5 records listed, each with a checkbox for selection.

Branch ID	Branch Name	Country	City	Active	Account Name	Created On
<input checked="" type="checkbox"/> CAPITAL	Revision Two Capital	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Capital	2/5/2018
<input checked="" type="checkbox"/> PRODRetail	Products Retail	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Products	2/5/2018
<input checked="" type="checkbox"/> PRODWHOLE	Products Wholesale	US	Bellevue	<input checked="" type="checkbox"/>	Revision Two Products	2/5/2018
<input checked="" type="checkbox"/> SERVEAST	Services East	US	McLean	<input checked="" type="checkbox"/>	Revision Two Services	2/5/2018
<input checked="" type="checkbox"/> SERWEST	Services West	US	McLean	<input checked="" type="checkbox"/>	Revision Two Services	2/5/2018

Branches in Acumatica

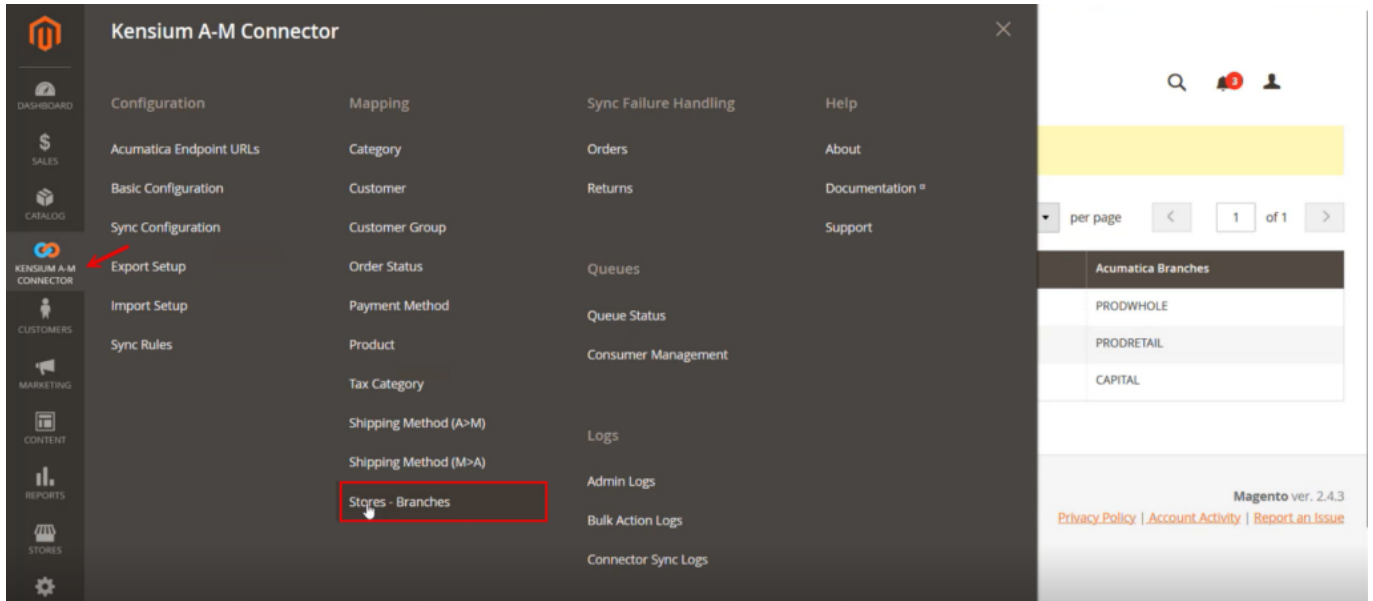

So, the data can be defined according to the Branches. When you are defining the branch-wise data and synching it to Magento, you also need to keep the data similarly (Branch Wise).

Go to [Profiles] in Acumatica and click on Stock Item as shown below.

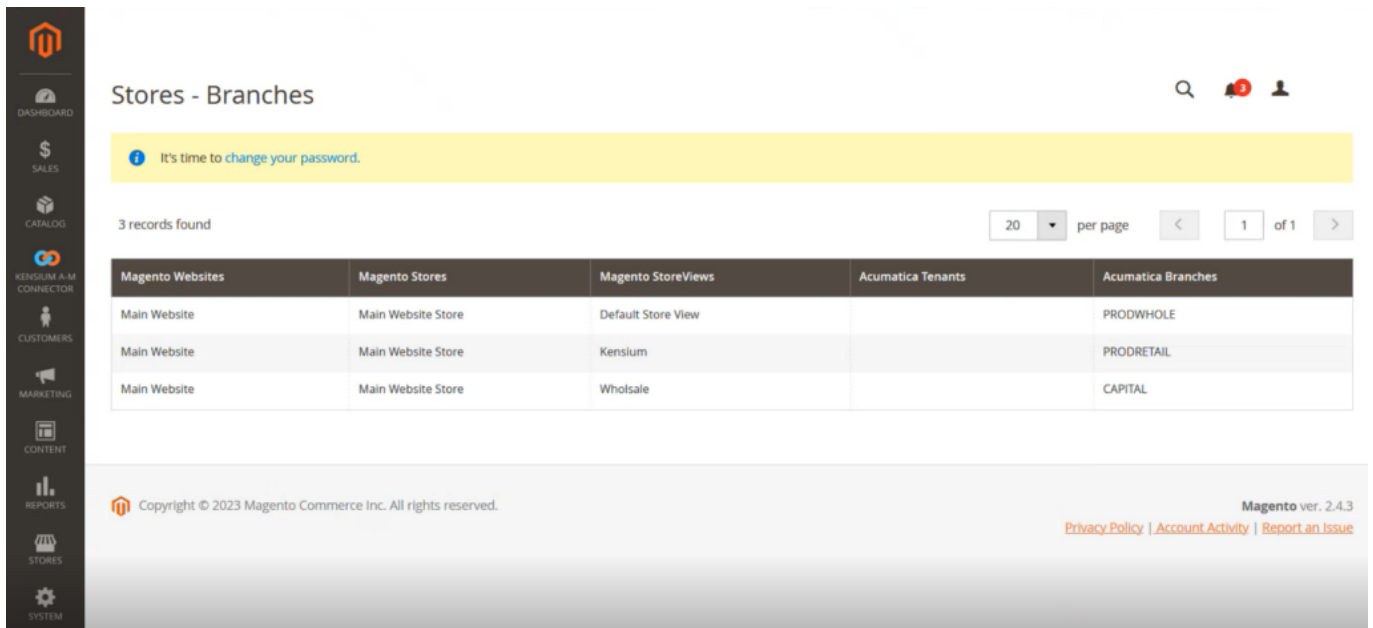

The following Product comes under the [Wholesale]. So, this product belongs to the respective branch. In other branches, the same product will not be available. Here we segregate the data where the product belongs.

You need to map these two. To map you need to go to the mapping screen. To map go to Magento Kensium A-M Connector and under Mapping click on Store-Branches as shown below.

Store-Branches under Mapping

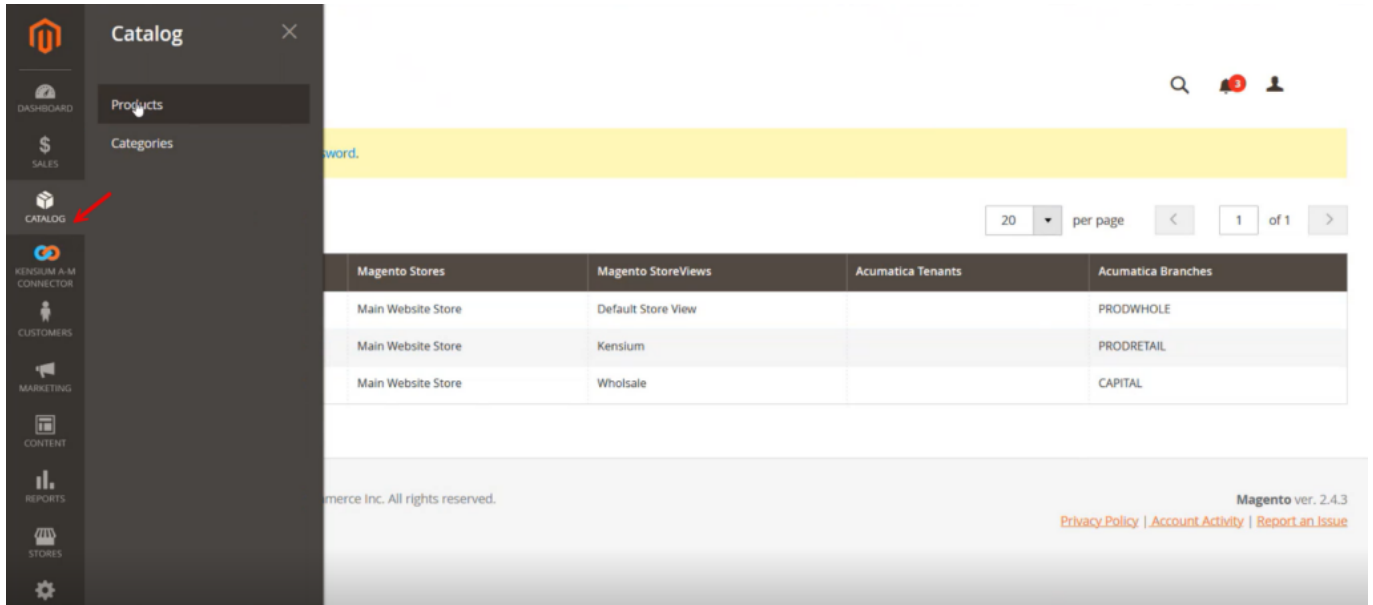

Upon clicking on the Stores- Branches you will be redirected to the mapping screen as shown below.

Mapping Screen for Stores- Branches

In the above screenshot you can view each store of Magento is mapped with each Acumatica Branches.

To see the use of the mapping click on the Catalogue in Magento and from there click on the Products.

The screenshot shows the Magento Catalog interface. On the left, a sidebar menu has a red arrow pointing to the 'CATALOG' option. The main content area displays a table mapping Magento Stores to Acumatica Branches.

Magento Stores	Magento StoreViews	Acumatica Tenants	Acumatica Branches
Main Website Store	Default Store View		PRODWHOLE
Main Website Store	Kensium		PRODRETAIL
Main Website Store	Wholesale		CAPITAL

At the bottom right of the page, it says 'Magento ver. 2.4.3' and provides links for 'Privacy Policy', 'Account Activity', and 'Report an Issue'.

Since all the products are added to the main website, the [Checkbox] for main Website is checked.

If you have multiple websites and if a product belongs to that website, it should be checked. If a product is available in all the stores you can check all the websites.
