

# Viewing API Schema

In the Magento Connector within Acumatica, you will be able to view API Schema. This section allows you to view the JSON file that passes through to the Magento connector from Acumatica. This section includes the following options.

- **Product Schema**
- **Category Schema**
- **Customer Schema**
- **Product Data**
- **Category Data**
- **Customer Data**
- **Order Data**

The screenshot shows the Magento Connector interface within Acumatica. The top navigation bar includes a search bar, a refresh icon, and user information (Revision Two Products, Products Wholesale, 9/27/2023 1:48 AM, admin admin). The left sidebar contains various icons for different sections, with the 'Magento Connector' icon highlighted by a red arrow. The main content area is titled 'Magento Connector' and displays a list of API endpoints under the 'APIs' section, which is highlighted with a red box. The endpoints include Product Schema, Category Schema, Customer Schema, Product Data, Category Data, Customer Data, and Order Data. Other sections visible include Configuration, Real-Time Processes, Batch Processes, and Schedule Batch Process.
