

# Managing Order sync with Discount from Magento to Acumatica

You can add a discount to an order from Magento and sync the same order into Acumatica. For this synchronization process, you need to follow the steps as described.

**Step 1.** You need to click the [Marketing] section of the left panel and you will get the option for the Cart Price Rule under [Promotions].

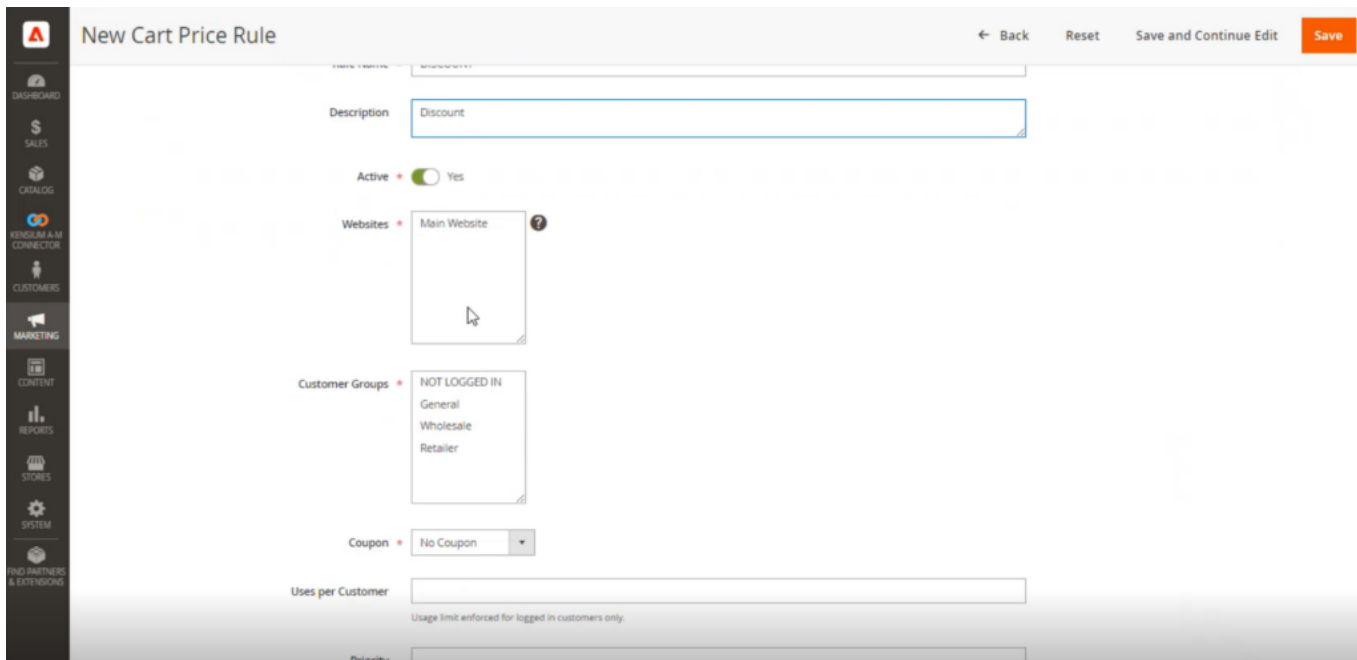

## Add New Rule in the Cart Price Rules

**Step 3.** Upon clicking on the [Add New Rule] you need to fill up the following field.

- **Rule Name (Text Field- Mandatory)**
- **Description (Text Field)**

- **Active (Toggle button- Mandatory) to enable.**
- ✖ • **Website**
- **Customer Groups (Mandatory List): Select the customer groups to which you want the discount to be applied. For example, General, Wholesale and Retail.**
- **Coupon (Drop down- Mandatory): The 3 available options are No Coupons, Specific Coupons and Auto. Generally, for the discount code you need to select No Coupons.**
- **User Per Customer: You can leave this field blank.**
