

Deactivating the_INITIALIZER

Deactivate: This will deactivate all the features of the Commerce Connector. Upon clicking on the **[Deactivate]** button you will get the following screen.

The screenshot shows the Acumatica Commerce Connector interface. The top navigation bar includes the Acumatica logo, a search bar, and user information. The left sidebar lists various modules like Banking, Projects, Payables, etc. The main area is titled 'Initialization' and contains a table of activities. A 'DEACTIVATE' button is visible in the top right of the main area. A confirmation dialog box is open, asking 'Are you sure you wish to Deactivate all features for the Commerce Connector?' with 'YES' and 'NO' buttons.

To deactivate all the features of the Commerce Connector, click [Yes].

Upon clicking on **[Yes]** the application will give you two options.

- Pause sync: This option will pause the sync and retain the messages that need to be sent across to be sent to ecommerce connectors when the Sync is activated again.
- Stop Push Notification: This option will turn off all backend monitoring and processing of messages to be sent across to the ecommerce connector and turn off the sync completely until you activate it back.

The screenshot shows the Acumatica Commerce Connector interface. The left sidebar contains navigation links for Banking, Projects, Payables, Receivables, Sales Orders, Purchases, Inventory, Payroll, Dashboards, Commerce Connector (highlighted), Commerce, and More Items. The main area displays the 'Initialization' tab with a table of activities. A 'Deactivate Sync' dialog box is open, showing two options: 'Pause Sync' (selected) and 'Stop Push Notifications'. The 'Pause Sync' option includes a description: 'During this time system will continue to monitor and retain messages that needs to be sent across to ecommerce connector when the Sync is activated back again.' The 'Stop Push Notifications' option includes a description: 'During this time will turn off all backend monitoring and processing of messages to be sent across to ecommerce connector and turn off Sync until the system is activated back again.' The dialog box has 'OK' and 'CANCEL' buttons.

Option in the Deactivate Sync

If you have deactivated, the activated button will be highlighted.

The screenshot shows the Acumatica Commerce Connector interface after the sync has been paused. A notification banner at the top right states 'Paused Sync to Commerce Successfully.' The 'Initialization' tab is active, and the 'ACTIVATE' button is highlighted in the top navigation bar. The table of activities is updated with 'Verification Status' and 'Activation Status' columns. The 'ACTIVATE' button is highlighted, indicating that the sync can be resumed.
