

Configuring KNCentralizedLicenseConsole

Centralized License Console, a potent solution for simplified license administration across our product line, is now **Available**. Whether you use one or more product packages, this integrated license module acts as a central hub for effectively managing licenses. A single download of this package will enable you to use the new module, which is available starting with version 23R1.

We are publishing the **[KNCentralizedLicenseConsole]** package in the instance.

- **New customers:** The New Refactored **[KNCentralizedLicenseConsole]** package will be published in the client instance.
- **Existing Customers:** Before Publishing the new License packages, All the existing product packages should be updated with new Packages which are compatible with the new licensing engine.
 - A Clean-up Script will be run to remove all existing License tables.
 - The new Refactored **[KNCentralizedLicenseConsole]** package will be published in the client instance.

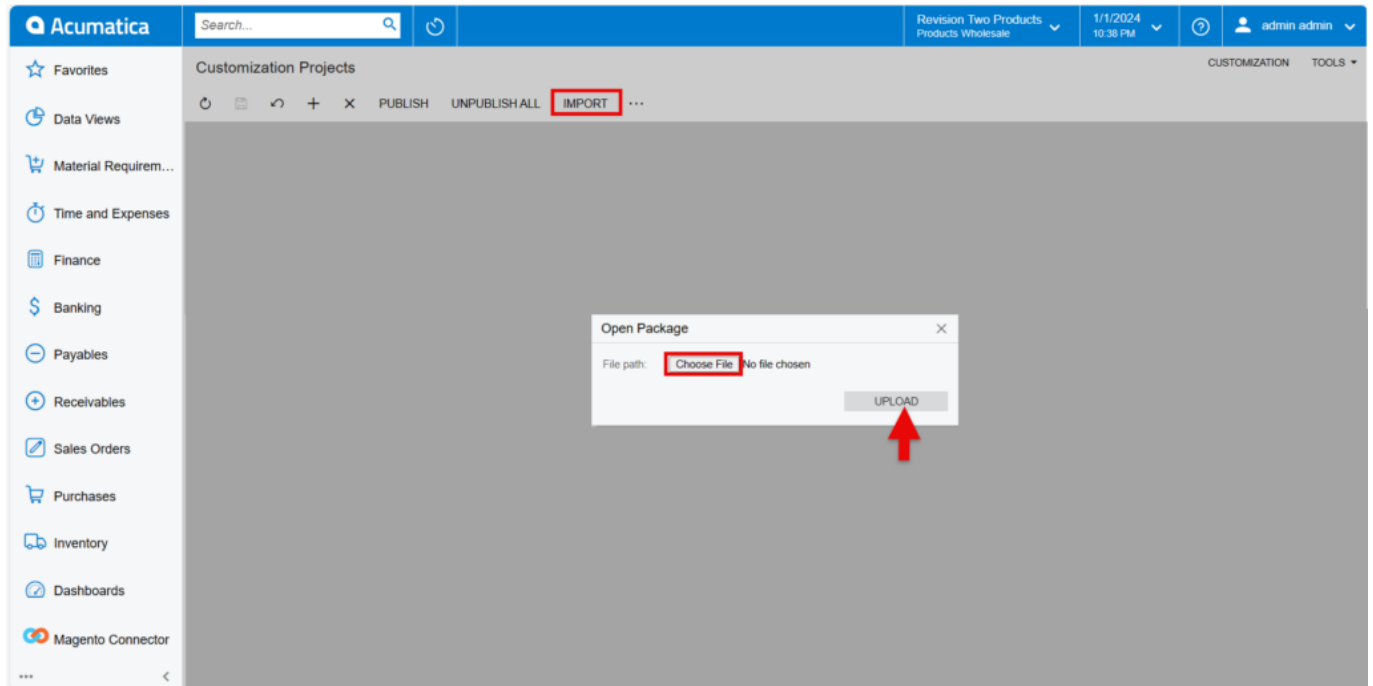

To configure the **[KNCentralizedLicenseConsole]**, you need to follow these steps.

- Save the .zip file of the **[KNCentralizedLicenseConsole]** package to the local hard drive.
- Click on the left panel in Acumatica and select **[More Items]**.
- Click on **[Customization]**, and you will be redirected to the Customization Projects screen.

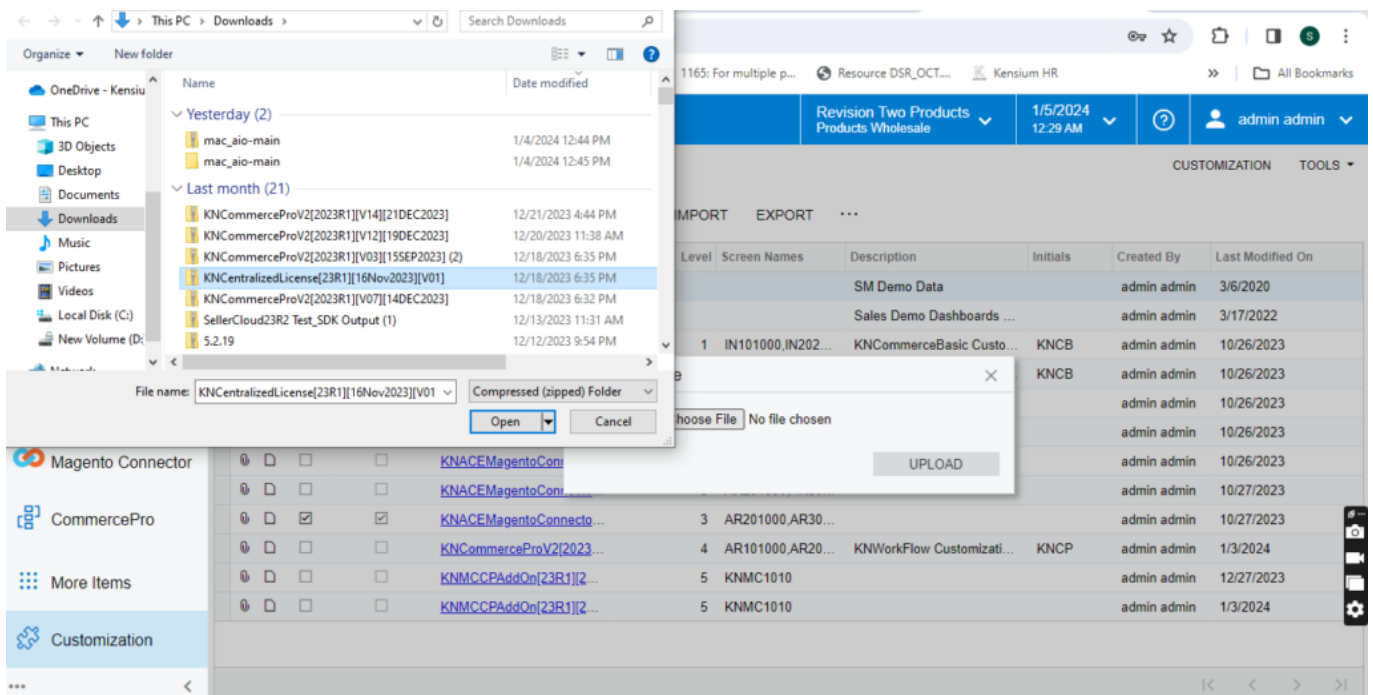

Customization Projects

- Click on **[Import]**, and a pop-up will appear on the screen.

- Select the [KNCentralizedLicenseConsole] zip file from the local system and click on [Upload].

The screenshot shows the 'Customization Projects' table with the following data:

Published	Project Name	Level	Screen Names	Description	Initials	Created By	Last Modified On
<input checked="" type="checkbox"/>	KNCentralizedLicense(23R1116Nov202...	1				admin admin	11/16/2023
<input checked="" type="checkbox"/>	KNCommerceProV2(2023R111V11)01D...	3	AR101000,AR201000,AR3...	KNWorkflow Customization package v...	KNCP	admin admin	12/1/2023

A 'Compilation' window is open, showing a log of successful operations including SQL queries, file updates, and database updates. A message at the bottom states: 'Customization project published successfully. You can close the Compilation pane.' with a 'Close Compilation pane' button highlighted by a red box.

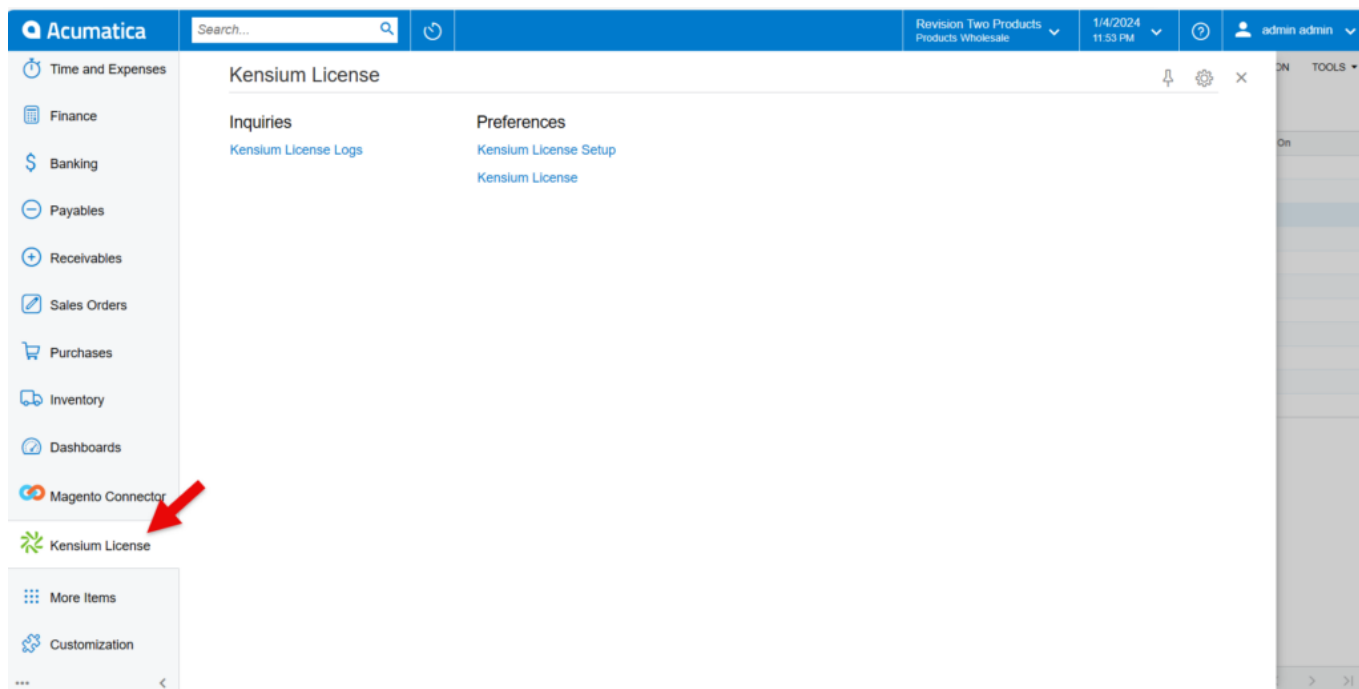

- You can view the Published **[KNCentralizedLicense]** in the Customization Projects Column.
- You must Enable the check box.

The screenshot shows the 'Customization Projects' table with the following data:

Published	Project Name	Level	Screen Names	Description	Initials	Created By	Last Modified On
<input checked="" type="checkbox"/>	Scripts					admin admin	12/6/2023
<input checked="" type="checkbox"/>	KNCentralizedLicense(23R1111Sect20...	1				admin admin	12/6/2023
<input checked="" type="checkbox"/>	KNCentralizedLicense(23R1118Sect20...	1				admin admin	12/6/2023

The 'Scripts' project is highlighted with a red box, and the 'KNCentralizedLicense(23R1118Sect20...' project is also highlighted with a red box.

- Click on **[Save]** to publish the **[KNCentralizedLicense]** package to the Acumatica instance.
- Once the packages are published **[Kensium license]** will be available.
