BigCommerce B2B Connector

Setting up BigCommerce Better B2B

The B2B solution for BigCommerce is certified by Acumatica and can be obtained directly from Acumatica through your VAR. During the implementation process, the configuration of the BigCommerce App will be handled by Fusion.

To access this application the first step would be to set up the Better B2B.

To activate the B2B features of BigCommerce in Acumatica ERP, download, and execute the latest version of the BigCommerce B2B Connector Package.
