

Managing Payment Configuration in Settings

This section allows you to enable the Payment Gateway. The application supports PayPal, Authorize.Net, Braintree and Apple Pay. For B2B you need to set up the Payment Configuration. Upon clicking on the Payment Configuration, you will be redirected to the following screen. These Payment methods are applicable for Invoice Payments only.

The screenshot displays the 'Payment Configuration' page within the KENSUM application. The left sidebar shows the navigation menu with 'Settings' selected. The main content area is titled 'Payment Configuration' and contains a list of payment methods: PayPal, Authorize .Net, BrainTree, and Apple Pay. The PayPal section is expanded, showing the following configuration options:

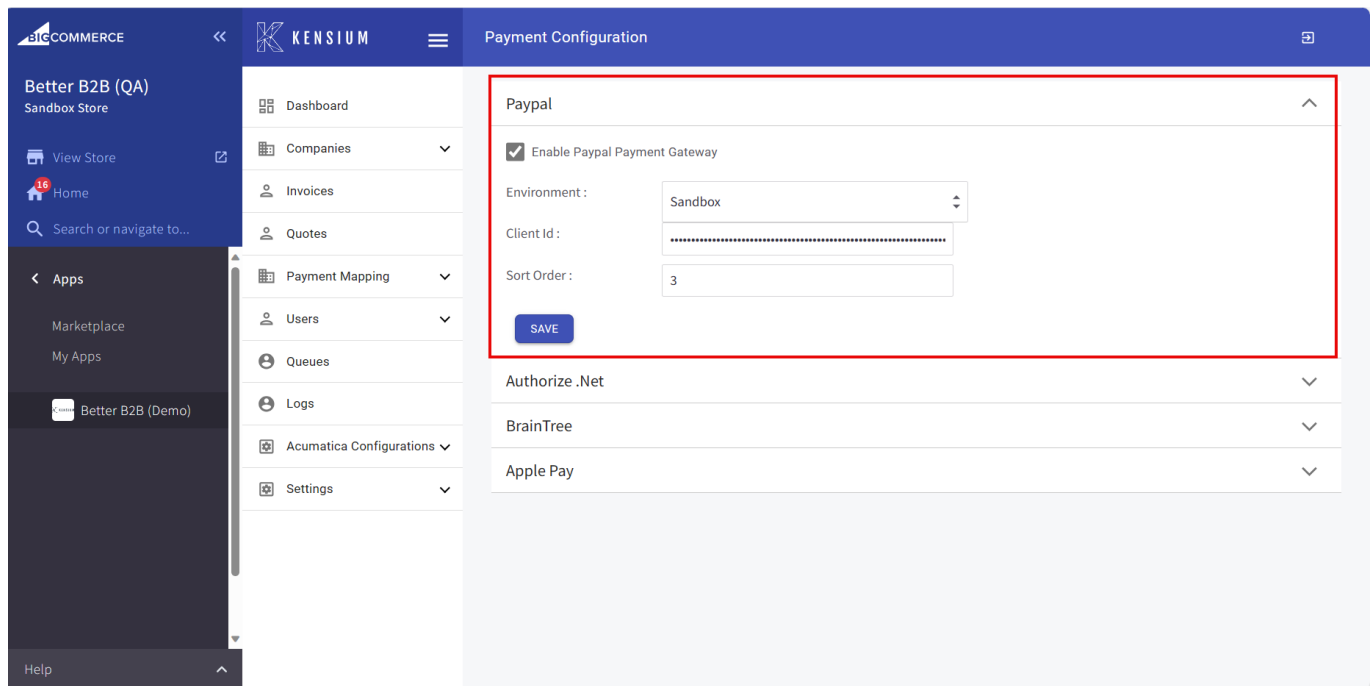

- ☒ Enable Paypal Payment Gateway
- Environment:
- Client Id:
- Sort Order:
-

Below the PayPal section, the other payment methods (Authorize .Net, BrainTree, and Apple Pay) are listed with expandable arrows.

Payment Configuration page

Note that, Payment methods for orders still respect the BigCommerce Payment Method Configuration.

1. PayPal: To enable Paypal you need to check the option for **[Enable Paypal Payment Gateway]**.
 - a. You need to select the [Environment].
 - b. Enter the client ID.
 - c. Enter the Sort Order.

2. Authorize.Net: To enable Authroize.Net you need to check the option for **[Enable Authorize.Net Payment Gateway]**.
 - a. You need to select the [Environment].
 - b. Merchant Login ID: Enter the merchant login ID.
 - c. Merchant Transaction Key: Enter the merchant transaction key.
 - d. Sort order: Select the sort order.

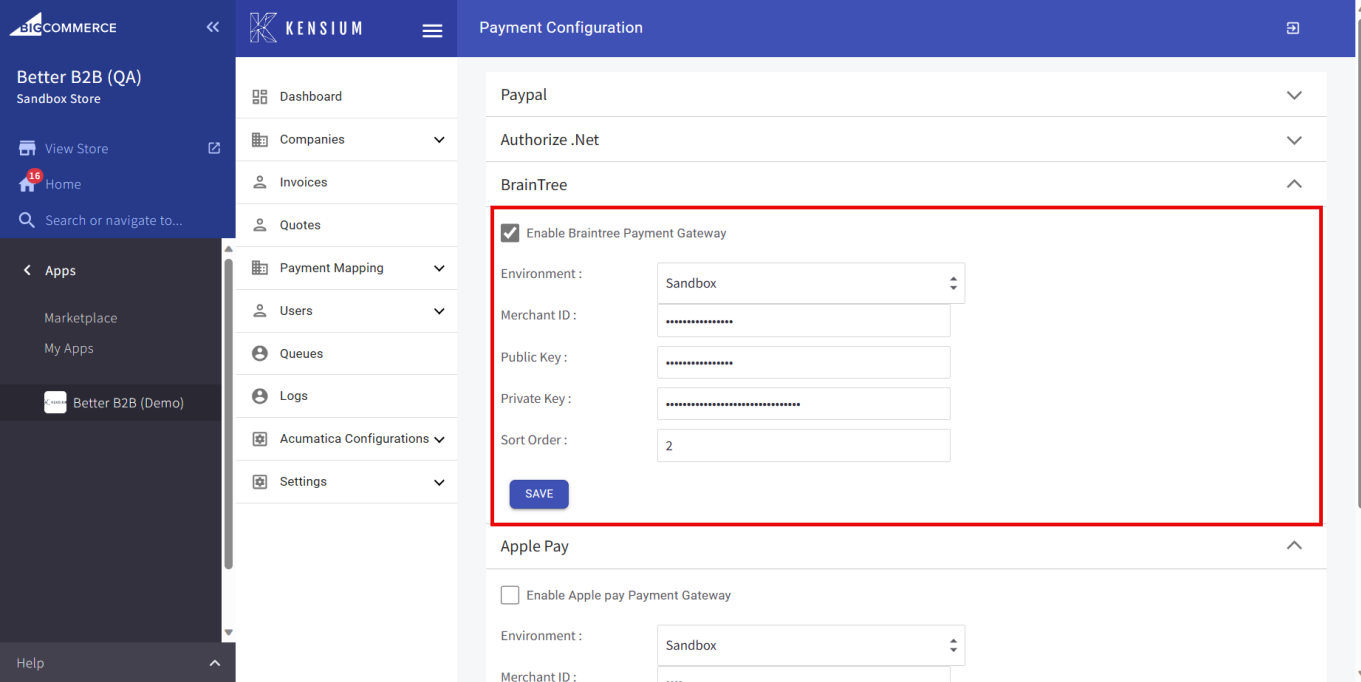

The screenshot shows the 'Payment Configuration' page in the BigCommerce B2B Connector interface. The left sidebar contains navigation links for 'Dashboard', 'Companies', 'Invoices', 'Quotes', 'Payment Mapping', 'Users', 'Queues', 'Logs', 'Acumatica Configurations', and 'Settings'. The main content area is titled 'Payment Configuration' and lists three payment gateways: 'Paypal', 'Authorize.Net', and 'BrainTree'. The 'Authorize.Net' section is expanded and highlighted with a red border. It contains the following fields:

- ☒ Enable Authorize.Net Payment Gateway
- Environment:
- Merchant Login Id:
- Merchant Transaction Key:
- Sort Order:
-
