BYP package

- Select the checkbox/row of the project (BYP).
- Click on **ellipse [...]** and then click on **[Publish to multiple tenants]**.

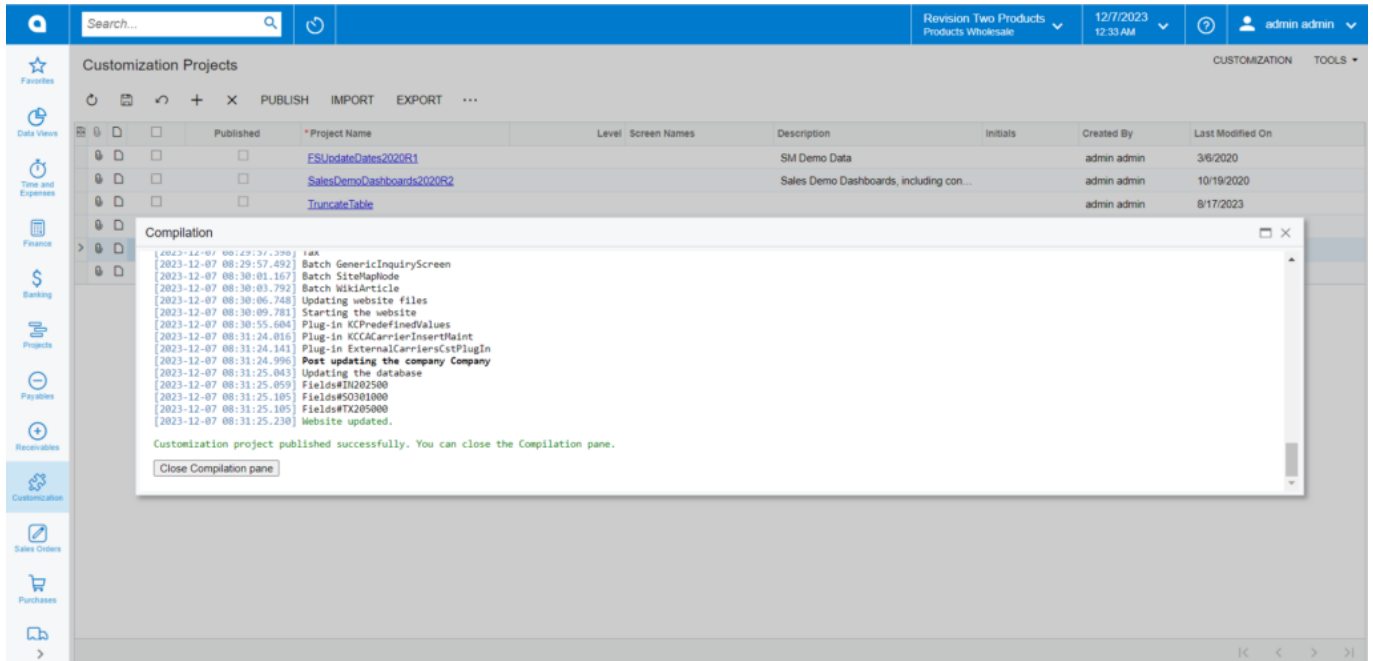

Click on

Published to Multiple tenants

- Click on **[OK]**.
- You can view a pop-up on the screen.

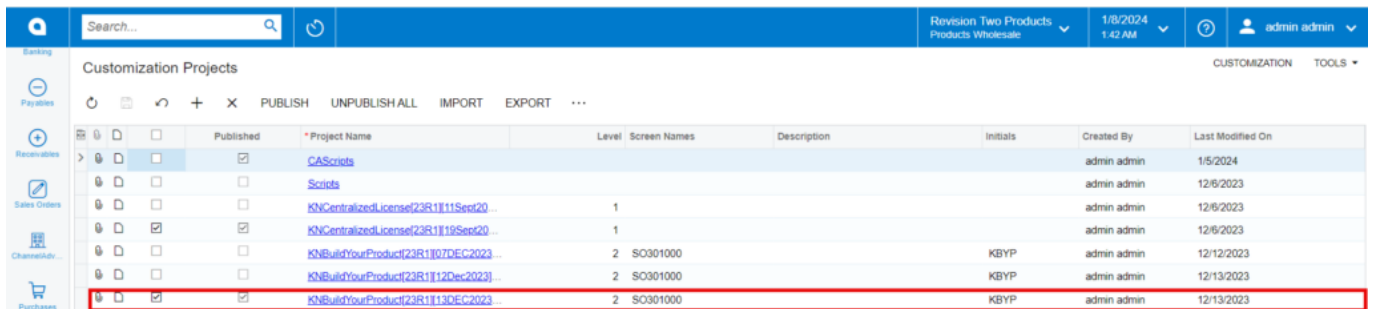

- Click on **[Close Completion Plan]**.

The screenshot shows the Fusion Build Your Product interface. The top navigation bar includes a search bar, a refresh button, and user information. The left sidebar contains various icons for navigation. The main area displays the 'Customization Projects' table with columns: Published, Project Name, Level, Screen Names, Description, Initials, Created By, and Last Modified On. A 'Compilation' pane is open, showing a list of compilation steps and a message: 'Customization project published successfully. You can close the Compilation pane.' Below the message is a 'Close Compilation pane' button.

Close Compilation pane

- You can view the Published BYP package in Customization Projects Column.
- You must Enable the check box.

The screenshot shows the Fusion Build Your Product interface. The top navigation bar includes a search bar, a refresh button, and user information. The left sidebar contains various icons for navigation. The main area displays the 'Customization Projects' table with columns: Published, Project Name, Level, Screen Names, Description, Initials, Created By, and Last Modified On. The table lists several projects, including 'CAScripts', 'Scripts', 'KNCentralizedLicense', and 'KNBuildYourProduct'. The 'KNBuildYourProduct' project is highlighted with a red border, indicating it is the published package.

Published Package

- Click on **[Save]** to publish the **[BYP]** package to the Acumatica instance.
