

CommercePro Feature Management

CommercePro Feature Management refers to the ability to control and configure features within the platform. This could include enabling or disabling certain functionalities or managing access permissions.

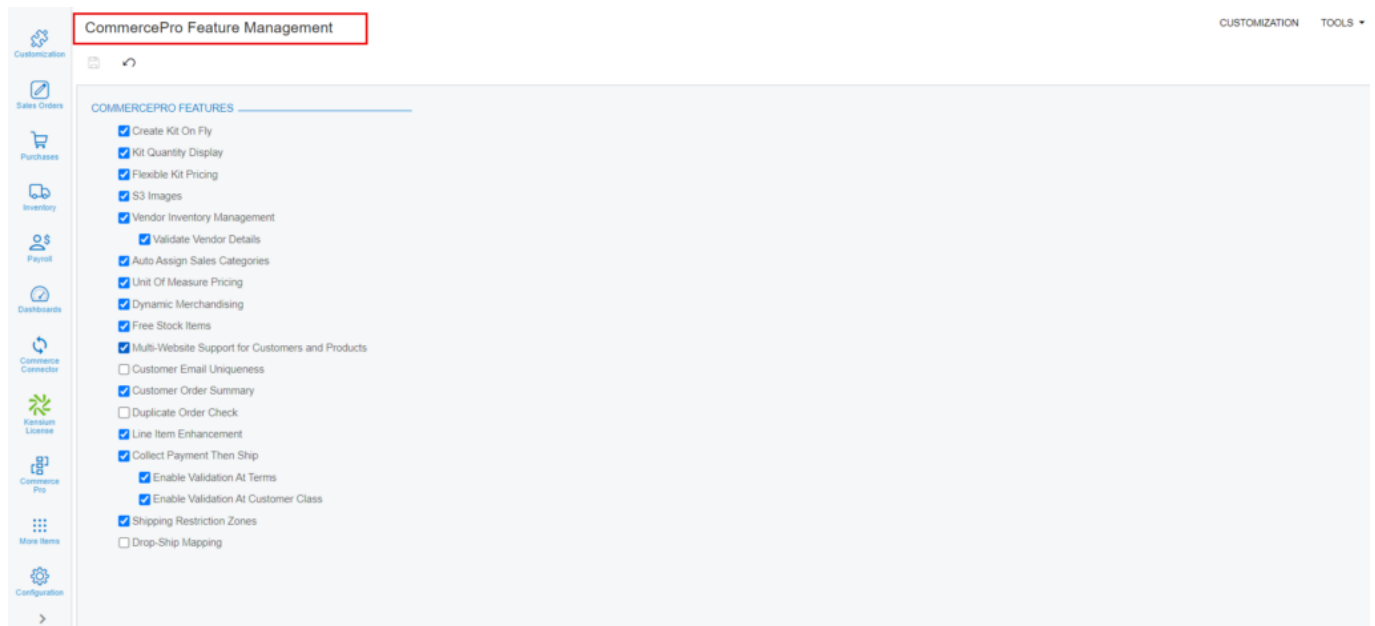

- To access **[Commerce Pro Feature Management]**, you need to navigate to the left side panel of **[Acumatica]** and click on **[CommercePro]**.
- Upon clicking, you will be redirected to Commerce Pro screen then click on **[Commerce Pro Feature Management]** under **[Preferences]**.

The screenshot displays the Acumatica Commerce Pro interface. The left sidebar contains a list of menu items, with 'Commerce Pro' highlighted by a red box. The main content area shows the 'Commerce Pro' screen, which is divided into three columns: 'Processes', 'Inquiries', and 'Preferences'. The 'Preferences' column lists several options, with 'CommercePro Feature Manage...' highlighted by a red box. The top navigation bar includes a search bar, a refresh button, and a user profile dropdown.

Commerce Pro

- You can view CommercePro features; these features will be accessible in stock items screen only if you enable Check boxes.

Commerce Pro Feature Management

- If you disable the check boxes and try to access the CommercePro features, will you get an error which is shown in the below screenshot.
