## Dolphin CT60 Handheld Computer

fusion  
WMS

The Honeywell CT60 mobile computer is designed for enterprises that require anywhere, anytime, real-time connectivity to business-critical applications and fast data capture capabilities in a highly durable, long-lasting form factor built for maximum uptime and productivity out in the field or on the selling floor. Built on the Mobility Edge™ platform, the CT60 mobile computer offers an integrated, repeatable, and scalable approach based on common hardware and software platform - unleashing customers from constraints faced today around integration and inflexible technologies without sacrificing enterprise security, reliability, performance, or management features.

#### **P-RANGER Mobile Computer**

fusion  
WMS

With the handheld computers of the P-RANGER family, you can improve the touch computing performances of the prosumer category. The management of P-RANGER is easy and fast, thanks to Android 9 that offer a new intuitive platform guaranteeing the user an extraordinary experience. All the business features of P-RANGER improve the abilities of the employees, maximizing productivity, and reducing the time of the operative cycles. Moreover, the devices are reinforced with LTE data module both for close and open environments. Choose P-RANGER to offer an advanced and cost-effective service to your customers!
