

Introduction

PayPal Payflow is a payment gateway solution offered by PayPal, a widely recognized and trusted online payment service. PayPal Payflow, when integrated with Acumatica, offers a comprehensive payment processing solution.

This integration allows businesses to securely accept and process online payments, including credit cards and e-checks, directly within the Acumatica ERP system. By leveraging the power of PayPal Payflow, businesses can streamline their payment workflows, enhance transaction security, and provide a seamless checkout experience for their customers.
