

Configure PayPal Payflow Package

1. Save the .zip file of the **PayPal Payflow** package to the local hard drive.
2. Go to the left navigation pane in Acumatica and choose **"More Items"**.
3. Click **"Customization"**.

Customization Projects

OR

Type the keyword as **"Customization"** in the universal search bar.

Customization Projects through search bar

4. Click **"Customization Projects"**.
5. Click the **"Import"** button.

Import product package

6. Select the **PayPal Payflow** .zip file from your local desktop and click **Upload**.

The screenshot shows the 'Customization Projects' interface. At the top, there are tabs for 'CUSTOMIZATION' and 'TOOLS'. Below the tabs is a toolbar with icons for refresh, save, undo, redo, add, delete, publish, unpublish all, import, export, and a menu icon. The main area contains a table with columns: Published, Project Name, Level, Screen Names, Description, Initials, Created By, and Last Modified On. The table lists several projects, including 'FSUpdateDates2020R1', 'KNAMEX[22.200.0104][D...', 'SalesDemoDashboards20...', 'VisualWorkflow', 'KNCommerceBasic[2...', 'KNPayFlow[22.201.0...', 'AmazonPA22R2Old', 'KNACEMagentoConnecto...', and 'KNPayPalExpressChecko...'. An 'Open Package' dialog box is open over the table, showing a 'File path:' field with a 'Choose File' button and a 'No file chosen' message. An 'UPLOAD' button is at the bottom right of the dialog.

Upload product package from local desktop

7. The file name will appear in the **Project Name** column.
8. Select the checkbox/row of the project(**PayPal Payflow**).

The screenshot shows the Acumatica interface. On the left is a sidebar with navigation icons for Receivables, Sales Orders, Purchases, Inventory, Payroll, and Dashboards. The top header includes the Acumatica logo, a search bar, a refresh icon, and a dropdown menu for 'Revision Two Products' with a date '5/18/2023 12:02 AM'. The main area is titled 'Customization Projects' and features the same toolbar as the previous screenshot. The 'PUBLISH' button is highlighted with a red box. The table below shows the same list of projects, with the 'KNPayFlow[22.201.0079][...' project highlighted by a red box. The 'Published' checkbox for this project is checked.

Select project and publish

9. Click the **Publish** button.
10. Click **Save** to publish the **PayPal Payflow** package to the Acumatica instance.
