# Configure SellerCloud Connector Package for Multiple Stores

- If you want to publish the package for multiple stores/tenants, click on the **ellipses(...)** icon in the sub-header menu.
- Select **[Publish to Multiple Tenants].**

Publish to Multiple Tenants

- On selecting the Publish to Multiple Tenants pop-up screen appears.
- To publish the package, you must check the boxes with the companies' names.
- Toggle the **[Execute All Database Scripts (Including Previously Executed)].**

Publish the package to multiple tenants

Click on **[OK].**
