

Marketplaces Settings

Marketplace settings related to online marketplaces where you can sell products or services. This includes platforms like Amazon, eBay, or others. Marketplaces settings involve shipping preferences, product listings, payment methods, Tax Management, and Warehouses Preferences.

If you are a merchant with a company that has multiple sales channels and you wish to sell your product at different channels and order levels, you can choose marketplace settings.

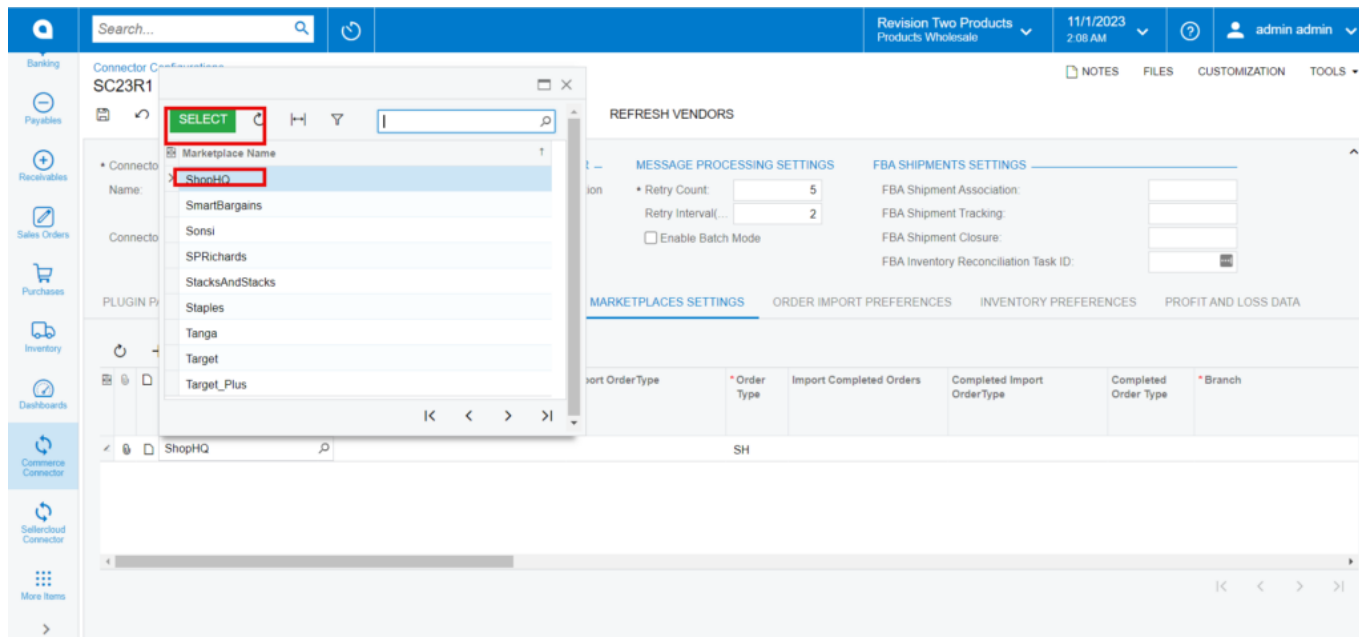

- You need to click on the **[Marketplace Settings]**.

The screenshot shows the Sellercloud Connector interface. The top navigation bar includes a search bar, a refresh icon, and user information. The left sidebar contains various icons for different sections. The main content area is titled 'Connector Configurations' and shows settings for connector 'SC23R1'. The 'MARKETPLACES SETTINGS' tab is highlighted with a red box. Below this tab, there is a table with columns: Sales Channel, Description, Import OrderType, Order Type, Import Completed Orders, Completed Import OrderType, Completed Order Type, and Branch. A red box highlights the first row of the table, which contains a search bar and a dropdown menu.

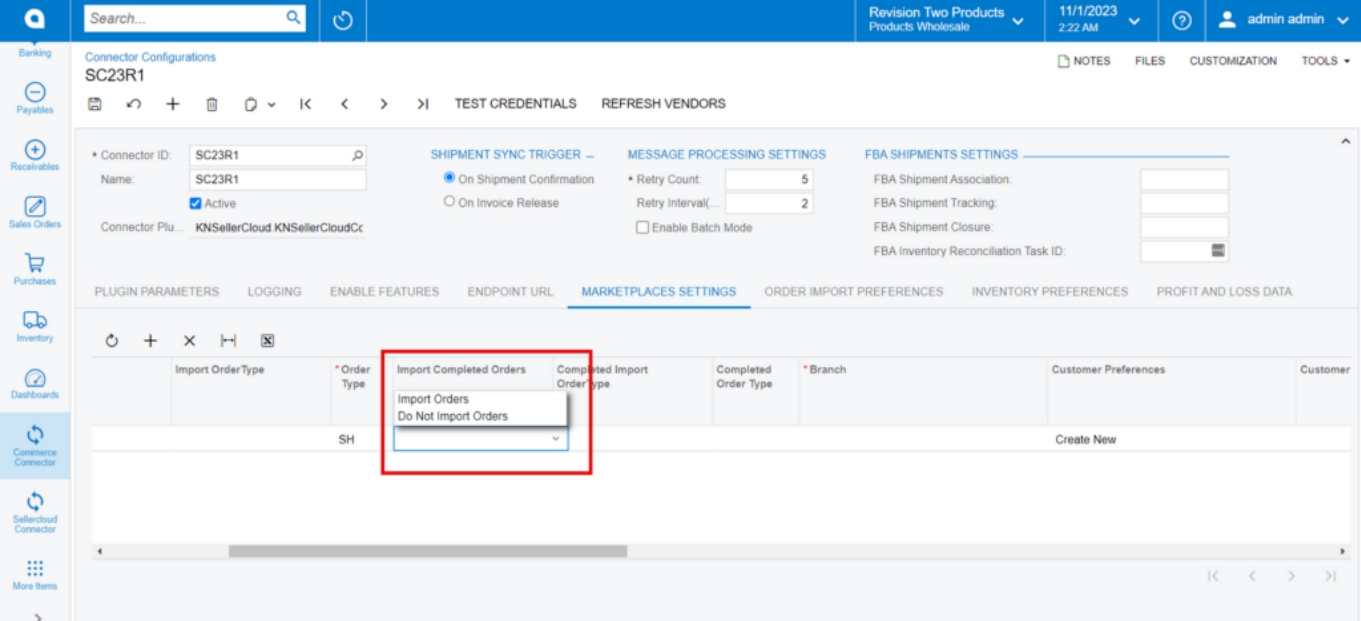

Marketplace Settings

- Click on **[+]** icon.
- Search for **[Sales Channel]** from marketplace Name.

Sales Channel

- Search for the **[Order Type]**.
- When the order is synced from Acumatica to SellerCloud Connector under this marketplace, the order will be created under the specified channel and order type.
- You can select multiple sales channels with different order types.

Branch

You need to select Customer Preferences from the drop-down menu.

- Use Existing: Every order goes to an existing customer in Acumatica.
- Create New: Based on Your customer class selection the customers will be created.

Select the **[Customer ID]** from the existing customers.

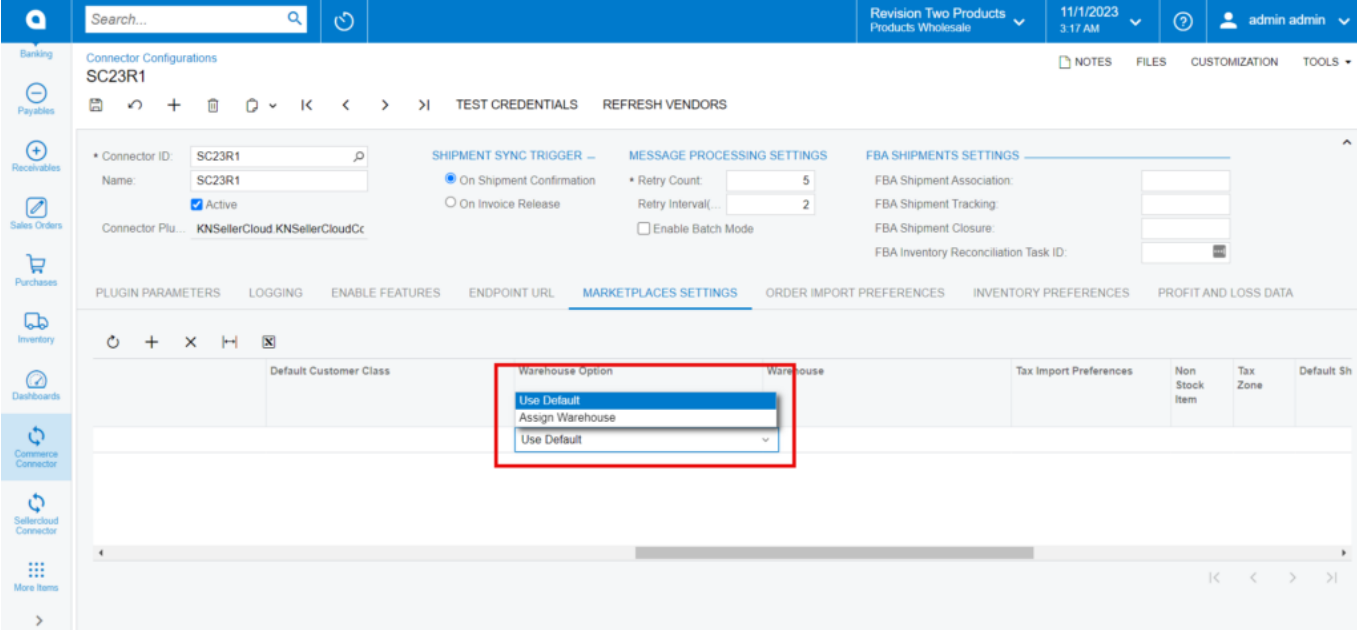

The screenshot shows the 'MARKETPLACES SETTINGS' tab in the Sellercloud Connector interface. The 'Customer ID' dropdown menu is highlighted with a red box and is open, showing 'Use Existing' and 'Create New' options. The 'Customer Preferences' dropdown menu is also highlighted with a red box and is open, showing 'Use Existing' and 'Create New' options. The 'Warehouse Option' dropdown menu is also visible and set to 'Use Default'.

Select Customer ID

You need to select the **[Warehouse Option]** from the drop-down menu .

- Use Default: To Sync order to the Default warehouse.
- Assign warehouse The Assign warehouse will receive the order upon import for the designated market.
