

Data Exchange

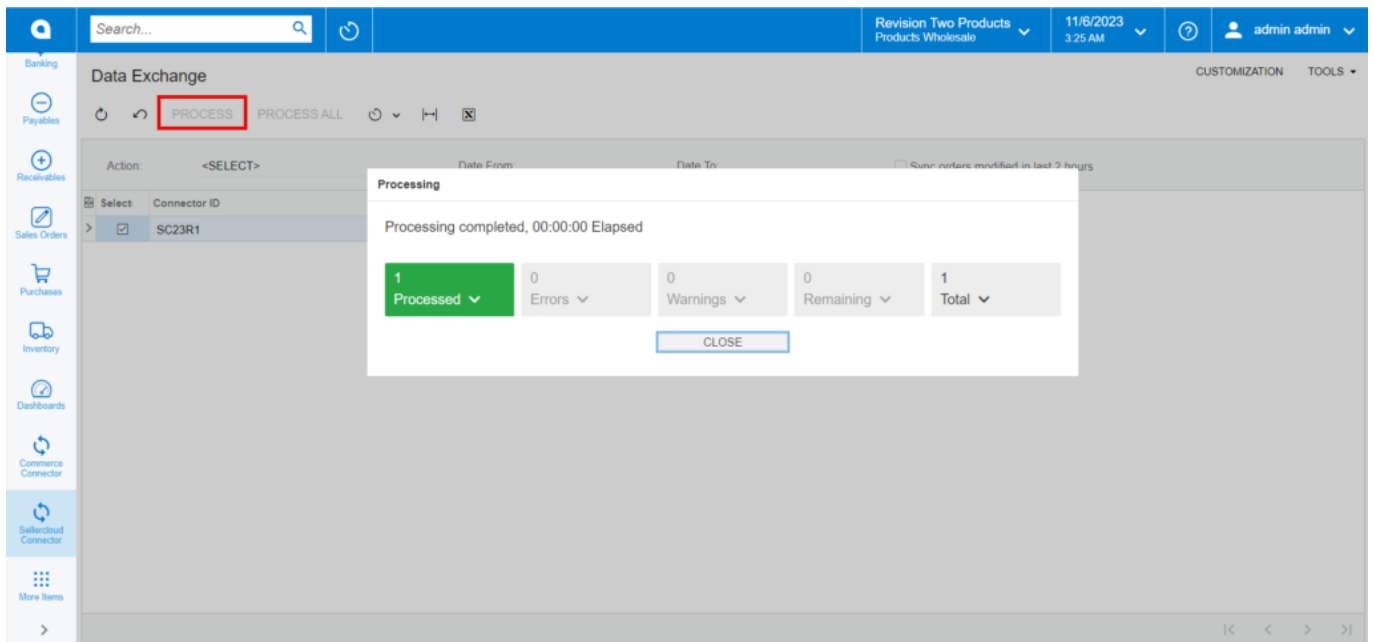

Data Exchange will help you to get the data from SellerCloud Connector to Acumatica.

The screenshot shows the 'Data Exchange' section of the Sellercloud Connector application. The interface includes a top navigation bar with a search bar, a 'PROCESS' button, and a 'PROCESS ALL' button. Below the navigation bar, there is a table with columns 'Select' and 'Connector ID'. The table contains one row with a checked checkbox and the value 'SC23R1'. The table is highlighted with a red border. The interface also includes a sidebar with various icons for different sections like Banking, Payables, Receivables, Sales Orders, Purchases, Inventory, Dashboards, Commerce Connector, and Sellercloud Connector. The bottom of the interface has a pagination bar with navigation arrows.

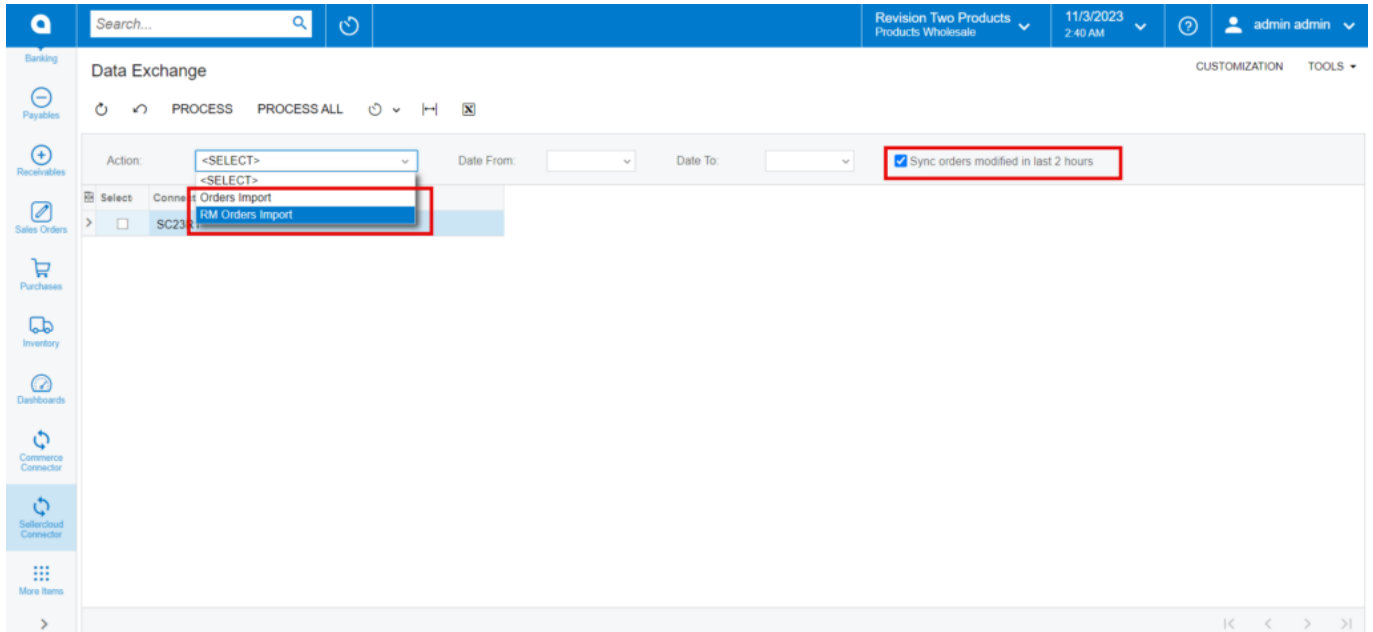

Data Exchange

- You need to Toggle the **[Select]** and click on the **[process]**.
- A pop-up will appear on the screen as **[processed]** and then click on close.

Processed Screen

- If you have multiple connectors, then you need to click on **[Process ALL]**.
- You have an option to select import type from the **[Actions]**
 - **Order Import**
 - **RM Order import**

Add the schedulers

-  • You need to search for the **[Schedule ID]** from the Automation Schedules Screen.

The screenshot shows the 'Automation Schedules' interface. On the left, a sidebar contains navigation icons for Banking, Payables, Receivables, Sales Orders, Purchases, Inventory, Dashboards, Commerce Connector, and Sellercloud Connector. The main area is titled 'Automation Schedules' and includes a search bar, a list of schedules, and a 'SELECT' button. A modal window titled 'Select - Schedule ID' is open, displaying a table of available schedules.

Screen ID	Description	Active	Schedule Type
PJ.50.40.10	Clear Daily Field Reports Weather Pr...	<input type="checkbox"/>	Daily
